

A dark, dense forest with a metal bridge leading into the trees. The bridge is made of metal grating and has a curved railing. The trees are tall and thin, with a thick canopy of green leaves. The lighting is dim, creating a sense of mystery and depth.

WIO

REENGAGING WITH NATURE | [WIO.ECO](https://wio.eco)

CATALOGUE FEBRUARY 2024

WIO IS PASSIONATELY RECONNECTING PEOPLE WITH NATURE.

At WIO, we're passionate about bridging the gap between people and nature. In today's fast-paced world, many of us have lost touch with the natural environment, missing out on its beauty and the numerous benefits it brings. We're here to change that. Our mission is to reintegrate the wonders of nature into everyday life, even into the most compact of spaces, enriching well-being in a sustainable, meaningful, and emotive manner. Through our innovative solutions, we aim to reignite the excitement of creating and experiencing artistically scenic natural worlds.

Our Promise to You and Nature

WIO caters to those eager to infuse their living and working environments with the essence of nature. Our diverse collection, which reflects nature's sophistication and diversity, is meticulously designed for effortless integration into your personal and professional spaces. User-friendly, fulfilling, and easy to maintain, our products enable you to craft your own natural sanctuary, inviting the outdoors inside.

Our Global Commitment

With a presence across six continents, WIO is dedicated to assisting you in creating and cherishing your personal slice of nature in your living spaces. We're not just about selling products; we're about fostering a deeper connection with the natural world.

Rooted in Core Values

As a European-based company, we're driven by a set of core values that include local production, maintaining the highest quality standards, and minimizing our environmental footprint. Nature is our muse, our medium, and our message. We're committed to inspiring and educating our clients, empowering them to create and sustain their own pieces of nature. Together, we aim to nurture an appreciation for, and a commitment to, protecting the natural world for future generations.

Why Re-engage with Nature?

In today's fast-paced world, the connection to nature often fades into the background. We've noticed a growing disconnect from the untouched beauty of natural environments and the nourishing experiences they offer. At WIO, we aim to bridge this gap and bring the serenity of nature back into the rhythm of everyday life.

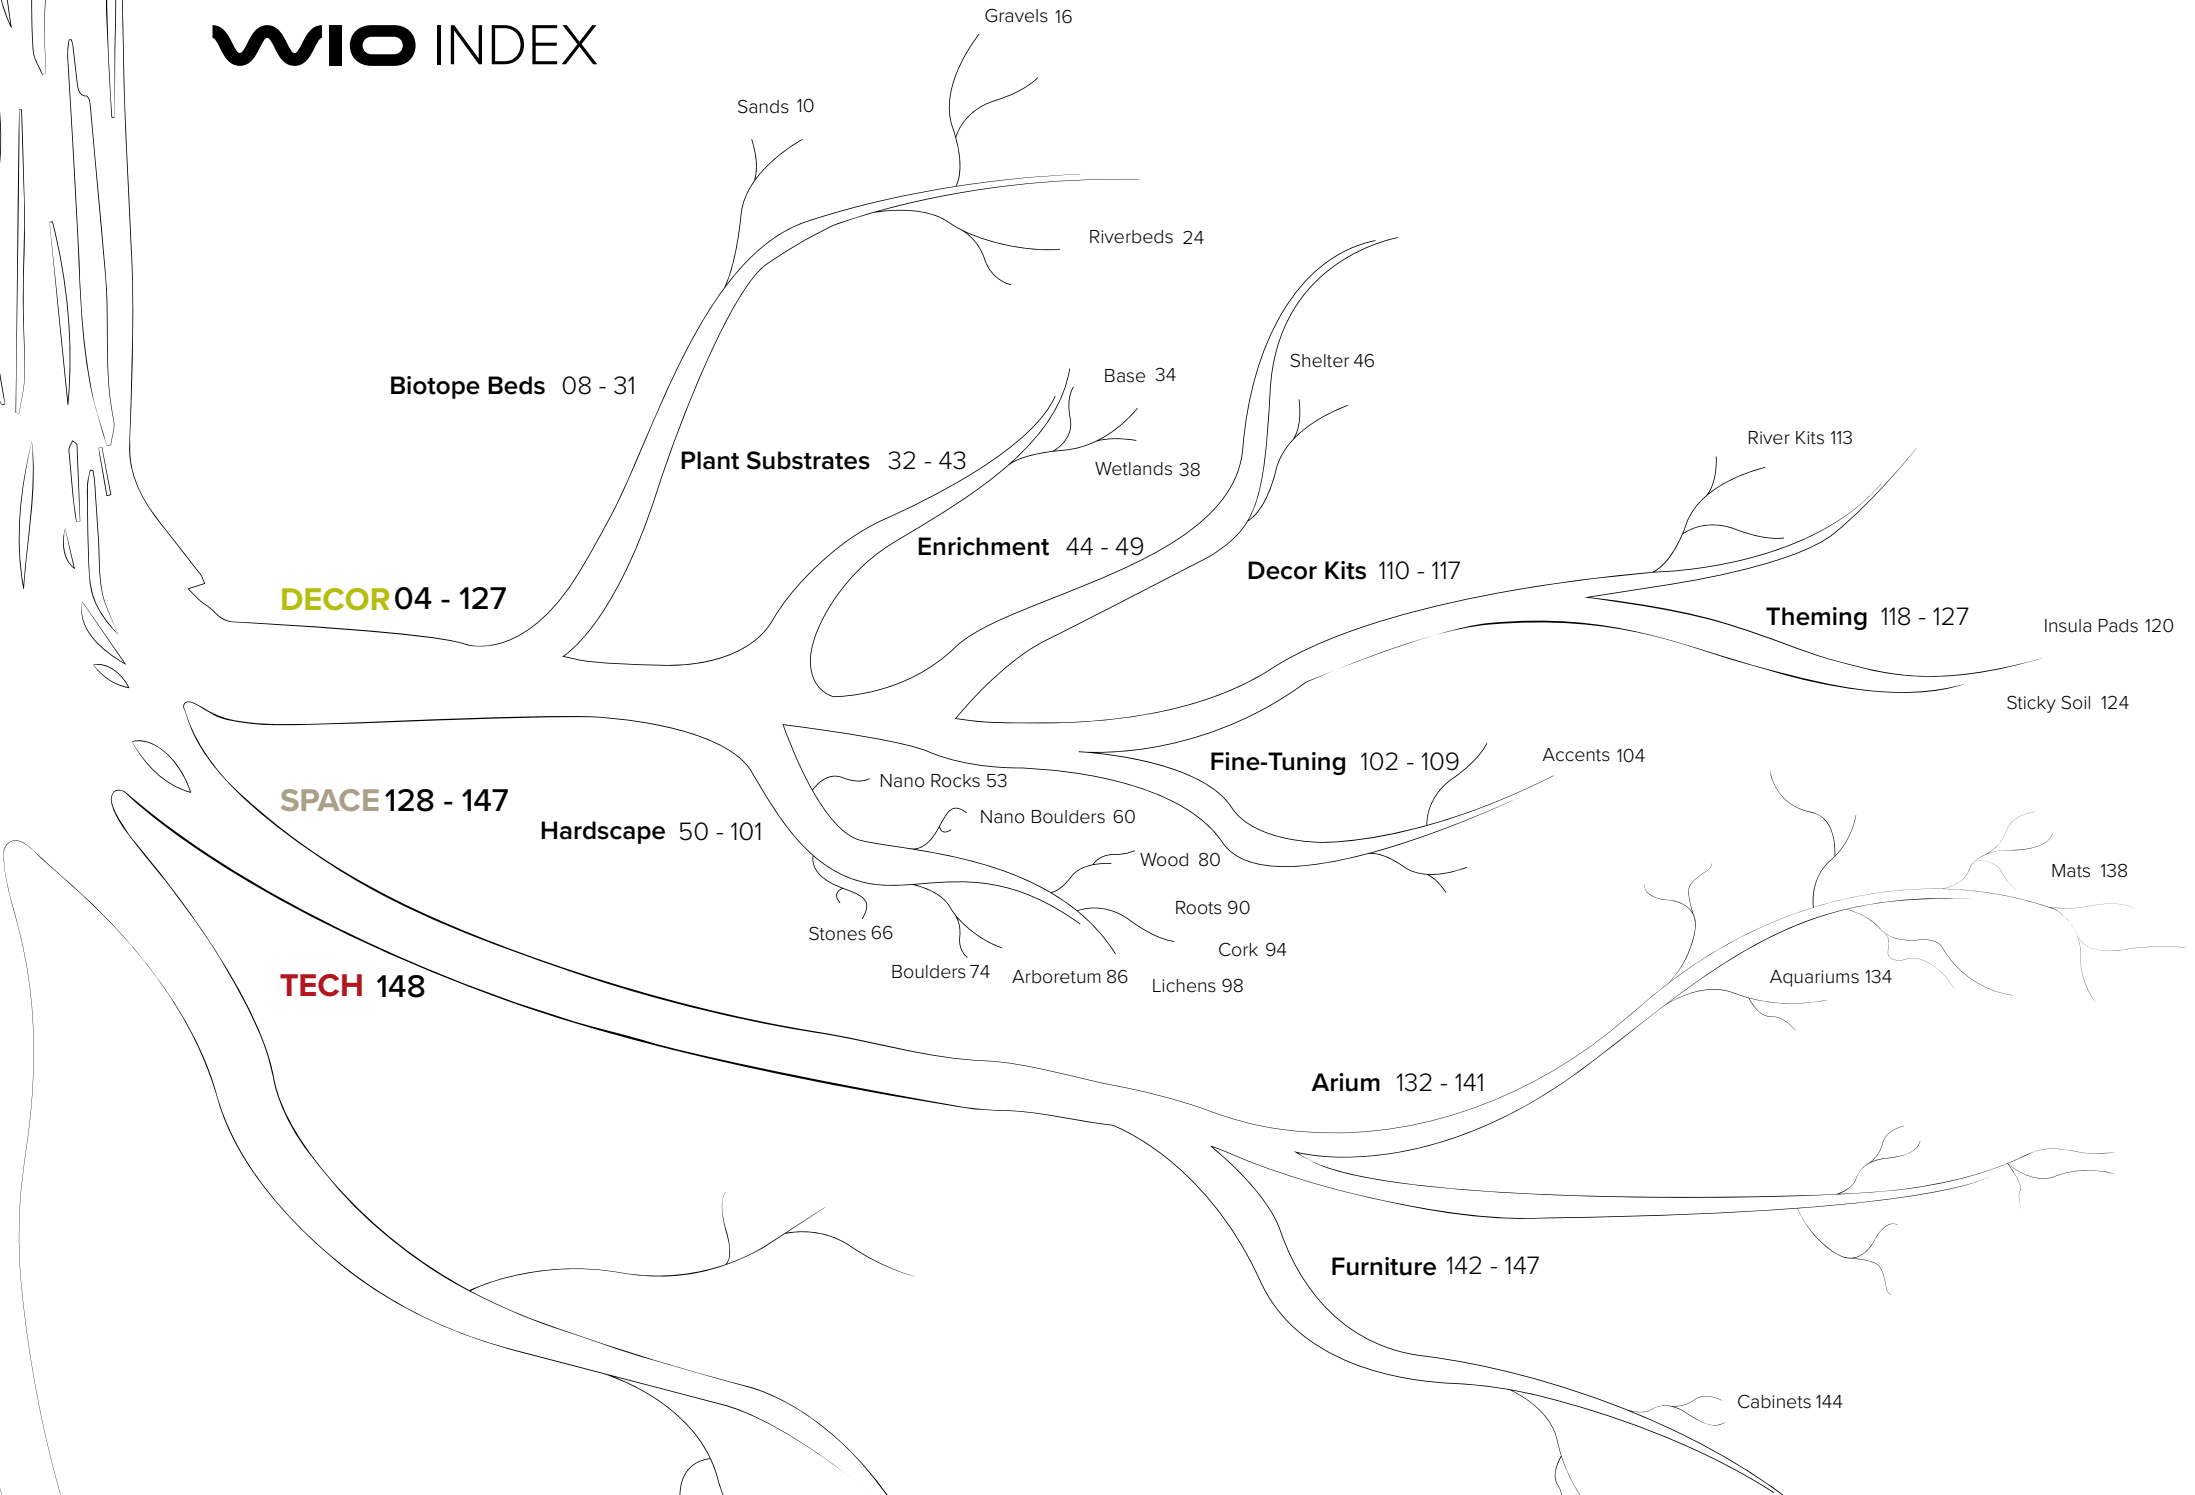

Our innovative solutions are more than products; they're gateways to re-engaging with the natural world. We're passionate about reigniting the thrill of creating and immersing in artistically scenic nature worlds. Our goal is to make these experiences accessible, enjoyable, and emotionally enriching.

By integrating the wonders of nature into even the smallest of spaces, WIO is committed to enhancing your well-being in a sustainable and meaningful way. With every nature space we help you create; we're not just changing environments, we're transforming lives.

Join us in this journey of re-discovery, where nature doesn't just complement your space – it becomes a vital part of your daily living.

Yago Alonso Giménez
CEO and Founder of WIO

DECOR

Your Nature's Artistic Palette

Often, the budget is directed towards technical elements like filters and lighting, however, it is the natural materials and their composition that determine the beauty, animal welfare, and artistic satisfaction of the habitat.

At WIO, we believe that natural materials are key to creating an environment that is not only aesthetically pleasing but also conducive to animal well-being.

Our appreciation for natural materials is at the core of our philosophy. For this reason, we offer the most extensive and exquisite selection of decor materials.

WIO Decor, is your perfect palette for endless artistic possibilities to transform your habitat into a nature masterpiece of art. Unleash your creativity with WIO Decor and experience nature like never before.

Biotope Beds

An underwater photograph showing a variety of fish swimming over a complex, natural-looking substrate. The substrate consists of a mix of fine sand, small pebbles, twigs, and roots, creating a diverse and textured environment. The water is clear, and the lighting is soft, highlighting the details of the fish and the substrate.

Welcome to Biotope Beds, a new revolutionary product line from WIO that breaks away from the traditional use of only sands, soils, and gravels in aquariums and terrariums. We have created a new concept that masterly blends: sands, gravels, fine-tuning details, nano stones, twigs, branches, roots, shells, and many other natural materials to create impressive biotope beds inspired by real biotopes from around the world. Unlike traditional substrates, our biotope beds require only one product to achieve a natural and authentic look, making them a convenient and practical option for aquascapers, terrarium creators, and biotopers alike.

Our Biotope Beds are made of a complex blend of sands, gravels, pebbles, nano rocks, roots, twigs, etc. that have been carefully developed through the study of natural habitats worldwide. We have analyzed the color, composition, gradients, and geology of habitats and used this knowledge to create substrates that replicate the natural environment. For example, our products include substrates that replicate the crystal-clear highland streams of Ibons and Glaciers, de river deltas, the big African Lakes, the Australian habitats, the Everglades, Bonito in Western Brazil, the earthy colors of the waterways of the Western Ghats mountains in southern India, the pools deep within the Amazon rainforest... This series will expand and develop and we hope you are excited about it as we are!

The random distribution of the Biotope Beds bag content creates a natural biotope bed impression with just spreading the content in your tank, with casual densities and content mix, resulting in an easy, fun, and impressive way to create a true slice of nature.

You don't need any special skills or tools to manipulate and spread the biotope bed in your aquarium or terrarium, making it an accessible and non-invasive way to enhance the natural look of your aquatic or terrestrial environment. Biotope Beds are made from 100% natural and non-toxic materials, are pre-washed for your convenience and can be used without rinsing.

Sands

At WIO, we believe that every detail matters when it comes to creating a natural and beautiful habitat. That's why we offer a full palette of sands, ranging from pristine white to deep black, covering all tones in between.

Our sands are carefully selected for their quality and texture, ensuring that they not only look stunning but also provide a natural environment for your aquatic or terrestrial creatures.

Let us inspire your creativity with the vast array of sands and gravels available. You can even experiment mixing our sands, even with our gravels, biotope beds, and other decor materials to create your own unique and personalized riverbed, enhancing the natural beauty of your aquarium or terrarium.

With WIO Sands, the possibilities for creating a unique and beautiful natural environment are endless.

DRY / WET

HEAVEN

Bright white natural silica sand with a natural blend of pale colours and grain size mix.

52000	2kg	0,1 - 4mm
52001	5kg	0,1 - 4mm

DRY / WET

EMERALD

New

Emerald Sand, a natural, inert greenish sand that brings the lush essence of greenery to your scape.

52440	2kg	0,1 - 4mm
52441	5kg	0,1 - 4mm

DRY / WET

TIGRIS

Pale yellowish natural silica sand with a natural blend of earthy pale colours and grain size mix.

52002	2kg	0,1 - 4mm
52003	5kg	0,1 - 4mm

DRY / WET

MIDNIGHT

Natural cosmetic sand with matte black dark tones which will create high contrast aquascapes and biotopes.

52016	2kg	0,1 - 2mm
52017	5kg	0,1 - 2mm

DRY / WET

EL DORADO

Orangish natural silica sand with a natural blend of ochre colours and grain size mix.

52004	2kg	0,1 - 4mm
52005	5kg	0,1 - 4mm

DRY / WET

CIMARRON

Earthy natural silica sand with a higher grain mix which creates a very natural impression of a riverbed.

52012	2kg	0,1 - 6mm
52013	5kg	0,1 - 6mm

DRY / WET

INFERNO

Dark coloured sand which looks very natural and similar to silt and mud substrates encountered in aquatic habitats.

52010	2kg	0,1 - 2mm
52011	5kg	0,1 - 2mm

DRY / WET

CHOCO

Unique chocolate coloured river sand to create truly natural biotope riverbeds.

52014	2kg	0,1 - 2mm
52015	5kg	0,1 - 2mm

DRY / WET

CANYON

This sand is composed of fine and small warm-coloured mixed grains, giving it an extremely natural aesthetic.

52008	2kg	0,1 - 4mm
52009	5kg	0,1 - 4mm

DRY / WET

ROCKET

Shadowy sand with a blend of pale to dark grey grain mix like a truly natural biotope riverbed.

52020	2kg	0,1 - 4mm
52021	5kg	0,1 - 4mm

DRY / WET

HIMALAYA

Pinkish-white fine sand which provides a bright, soft ambience to any nature display.

52018	2kg	0,1 - 4mm
52019	5kg	0,1 - 4mm

DRY / WET

BUMBLEBEE

Mustard-coloured natural silica sand which brings the impression of desert sands.

52006	2kg	0,1 - 2mm
52007	5kg	0,1 - 2mm

Gravels

At WIO, we understand that every detail matters when it comes to creating a natural and beautiful habitat for your aquatic or terrestrial creatures. That's why we offer a full palette of gravels, carefully selected for their quality, size, color, and texture to ensure that they not only look stunning but also provide a natural environment for your pets.

Our gravels are made up of rock fragments that can vary in size from small pebbles to larger stones. They come in a range of colors and textures, from smooth and polished to rough and jagged, to suit a variety of setups.

Gravels can be used to anchor plants, create hiding places for your pets, and promote beneficial bacteria growth. They can also play an important role in creating a visually appealing and natural-looking scape for your aquarium or terrarium. By carefully selecting the size, color, and texture of your gravels, you can create a truly unique and beautiful habitat for your aquatic or terrestrial pets.

Gravels can be used to create continuity and cohesion throughout the scape, matching the colors and textures of the rocks and boulders in your setup. They can also create transitions between different areas of the setup, such as larger gravels near the base of a rock formation to create a gradual slope and transition to smaller gravels near the front of the tank. Playing with the size of the gravel can also create interesting visual effects, such as stone slides or a textured substrate that mimics the look of a riverbed or stream.

At WIO, we believe in inspiring your creativity with the vast array of gravels available. You can even experiment with mixing our gravels with other decor materials to create your own unique and personalized riverbed, enhancing the natural beauty of your aquarium or terrarium. With WIO Gravels, the possibilities for creating a unique and beautiful natural environment are endless.

DRY / WET

WHITE ADDER

These pale-yellow to cream coloured stones are a great addition to the pallets of aquascapers and biotopers.

52032	S - 2kg	15 - 30mm
52033	Mix - 2kg	15 - 50mm
52034	L - 2kg	30 - 50mm

DRY / WET

ELDERLY

Natural river gravel creates a very natural riverbed impression. It does not raise the hardness of the water.

52023	S - 2kg	3 - 10mm
52024	Mix - 2kg	3 - 40mm
52025	L - 2kg	20 - 40mm

DRY / WET

EMERALD

A unique gravel featuring an exquisite range of emerald colors with green bluish shades.

52351	S - 2kg	5 - 15mm
52352	Mix - 2kg	5 - 30mm
52353	L - 2kg	10 - 30mm

Noir Gravel is an exquisite substrate featuring a deep, charcoal gray palette with a hint of rustic earth tones.

52445	S - 2kg	3 - 10mm
52446	Mix - 2kg	3 - 40mm
52447	L - 2kg	20 - 40mm

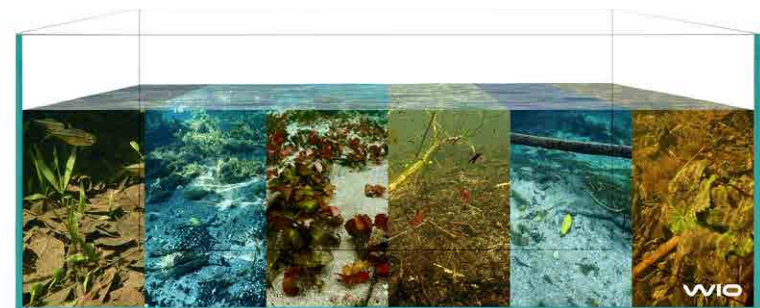

Riverbeds

The innovative solution that redefines the way we create captivating and natural aquatic environments. Gone are the days of ordinary substrates and generic designs – with Riverbeds, you can transform your aquarium or terrarium into an authentic river ecosystem.

Inspired by the diverse and enchanting landscapes found in rivers, streams, lakes... around the world, Riverbeds are carefully curated substrates that mimic the beauty and authenticity of riverbeds. Each Riverbed is a work of art, thoughtfully designed to bring the essence of nature into your aquatic display.

Imagine the serenity of a tranquil forest stream, the vibrancy of a tropical river, or the mystique of a rocky mountain brook. Riverbeds allow you to recreate these captivating environments with ease and precision. With a wide range of options to choose from, you can select the perfect Riverbed that matches your vision and creates the ideal backdrop for your aquatic world.

Our Riverbeds are crafted using a variety of natural materials such as sands, gravels, stones, shells, botanicals, and more. These elements come together to form a harmonious composition that mimics the texture, color, and diversity found in real riverbeds. The result is a visually stunning and biologically enriching environment that promotes the health and well-being of your aquatic inhabitants.

DRY / WET

NAUTILUS LIGHT

Bright shell-based mix ideal for Rift Lake displays such as Tanganyika biotopes.

52054	2kg	0,1 - 5cm
52055	5kg	0,1 - 5cm

DRY / WET

CRIQUEY

Great Red Continent, Australia. This would be the perfect addition to a biotope for small Rainbowfishes.

52070	200g	0,1 - 20cm
52071	500g	0,1 - 40cm

DRY / WET

NAUTILUS TAN

Perfect for suggesting Malawi biotopes, estuaries, or other coastal marine environments.

52056	2kg	0,1 - 5cm
52057	5kg	0,1 - 5cm

DRY / WET

EVERGLADES

A genuine 'Natural Style' substrate with dried seed pods from North America.

52072	400g	0,1 - 20cm
52073	900g	0,1 - 40cm

DRY / WET

NAUTILUS DARK

Blend of small dark and light shells based on substrates encountered in the Pantanal of Brazil and Lake Turkana in Africa.

52058	2kg	0,1 - 5cm
52059	5kg	0,1 - 5cm

DRY / WET

BECK

Volcanic sand from the mountains of Spain. Used to create a moody ambience, or contrasted with bright green plants.

52066	2kg	0,1 - 20cm
52067	5kg	0,1 - 40cm

DRY / WET

MERE

Blend of small stones, gravel, twigs, and warm yellow sand, inspired by Pool Malebo in Congo, Africa.

52060	2kg	0,1 - 20cm
52061	5kg	0,1 - 40cm

DRY / WET

WOODBED ACCENT

A mix of twigs, bark, branches, and roots, providing habitat and behavioural enrichment for terrestrial and aquatic creatures.

52079 150g 0,1 - 20cm

Plant Substrates

Welcome to the world of plant substrates, specifically designed for aquariums, paludariums, and terrariums, where the beauty and vitality of aquatic and terrestrial plants come to life. These specialized substrates are meticulously crafted to provide the perfect foundation for a thriving and captivating plant ecosystem in your enclosed habitats.

In the realm of aquatic environments, a well-chosen substrate is the key to unlocking the full potential of your aquatic plants. It acts as a nutrient-rich medium, offering essential elements to nourish and anchor the roots of your plants. With our plant substrates, you can create an underwater paradise that supports the growth and development of a diverse range of aquatic species.

But our plant substrates don't stop at aquariums. They also extend their influence on paludariums and terrariums, bringing the beauty of lush greenery and natural landscapes into these unique habitats. Whether you're building a tropical rainforest, a desert-themed enclosure, planted bowl or a slice of nature from any corner of the world, our substrates provide the ideal base for your plants to thrive and flourish.

Our carefully curated plant substrates go beyond nutrient provision. They offer stability and support, ensuring the well-being of your plants and creating an environment that mimics their natural habitat. These substrates foster the growth of beneficial bacteria, which aids in maintaining water quality and the overall balance of your enclosed ecosystem.

With a wide range of plant substrates to choose from, you can select the perfect blend of nutrients, grain sizes, and textures to suit your specific needs and preferences. From fine-grained substrates that promote easy root penetration to coarser substrates that enhance the visual appeal of your habitat, our offerings cater to the diverse requirements of different plant species and design aesthetics.

Base

Discover the transformative power of our Base Series, your ultimate solution for creating ecosystems that are as vibrant as they are resilient. Ideal for aquariums, paludariums, and terrariums, this curated selection of base substrates combines natural aesthetic appeal with scientific functionality.

Imagine effortlessly molding hills, valleys, and slopes while also providing a nutrient-rich foundation teeming with vital minerals and trace elements. Here, your design elements—be it rocks, driftwood, etc—find a stable and interlocking base, laying the groundwork for a world that not only looks beautiful but functions efficiently. The porous materials in our substrates go a step further by acting as bio-filters, home to beneficial bacteria that improve water quality and contribute to environmental balance.

Moreover, the aerated structure ensures an optimal oxygen supply, transforming your base layer into a living, breathing biotope.

DRY / WET

POWERVOL

New

Elevate your scapes with PowerVol Base a 100% natural volcanic substrate offering easy topography creation.

52406	2kg	4 - 15mm
52407	5kg	4 - 15mm

Wetlands

The Wetland Series offers two exceptional substrate options for aquatic plant enthusiasts: the Eonian Series and the Artist Series.

The Eonian Series is inspired by the nutrient-rich soils found in tropical areas and offers a stable volcanic base substrate for aquatic plants to grow and thrive. It provides all the necessary macro and microelements for long-term growth and beauty. The substrate's exceptional bio-filtering function enhances microbial colonization, which helps reduce harmful substance buildup and promotes a healthy ecosystem. The Eonian Series comes in 3 shades and 2 grains, it is perfect for creating dramatic high contrast aquascapes and biotopes that will inspire and delight aquarium hobbyists and nature lovers alike.

The Artist Series, on the other hand, is crafted from 100% natural clay with the capabilities of pH buffering and the ability to absorb and remove impurities and toxins from the water. It is designed to recreate any natural habitat with its six unique shades and two grain options. The Artist Series offers an optimal substrate ready-to-use for aquatic flora and fauna, providing complete nutrient supply of macro and microelements for plants. It is a natural buffer, helping to maintain a stable pH in the aquarium. The Artist Series is perfect for nature artist creators looking to create a customized and realistic biotope in their aquarium.

The Wetland Series offers a perfect blend of beauty and functionality, inspiring and delighting hobbyists while promoting the natural behaviors and activities of aquatic species.

STOP TIME

Enrichment

We believe that providing a stimulating and natural environment for the animals in our care is crucial for their health and well-being. That's why we have developed a line of products specifically designed to provide enrichment for the creatures living in aquariums, paludariums, and terrariums.

Our Enrichment line includes a variety of shelters made of natural shells and pods, as well as botanicals such as pods, seeds, leaves, and more. These products not only provide a natural and authentic environment for the animals, but also promote their natural behaviors, allowing them to forage, hide, and interact with their surroundings just like they would in the wild.

Enrichment is essential for animals in captivity, as it helps to prevent boredom and stress, and encourages natural behaviors. By providing a variety of shelters and botanicals, we can create a stimulating environment that promotes the physical and mental well-being of the animals in our care.

Shelter

We deeply value the well-being of the animals in our care, recognizing the significance of a stimulating and natural environment. To cater to this need, we have designed the Shelter line, meticulously designed to offer enriching experiences for your fauna in aquariums, paludariums, and terrariums.

Our carefully curated mix of mid to big snail shells and pods in various shades and forms serve as the perfect shelters for your creatures. Not only do they enhance the natural beauty and authenticity of your nature creations, but they also promote the animals' natural behaviors, allowing them to forage, hide, and interact with their surroundings just as they would in the wild.

Promoting a stress-free environment and encouraging the expression of natural behaviors, Shelter proves to be an essential component. Through our diverse range of shelters, we create a captivating environment that prioritizes the physical and mental well-being of the animals under our care.

SHELL SHELTER

Large and attractive shells perfect for Shell-dwelling cichlids and other small animals.

52081 M - 12pcs 30 - 80mm

SHELL SHELTER XL

large shells, hand selected by our team for their beauty. However, these shells do more than provide aesthetic appeal.

52082 XL - 5pcs 80 - 150mm

Hardscape

We understand that natural materials are the true expression of creativity in the process of habitat creation. Stones and wood transcend their generic nature to become sculptural masterpieces that capture everyone's gaze. Our Hardscape line stands as the epitome of excellence, offering a comprehensive selection of Stones, Boulders, Nano Rocks and Boulders, Woods, Roots, and Arboretum.

While technical components such as filters and illumination often receive the lion's share of the budget, it is the natural materials and their composition that truly determine the outcome, beauty, and satisfaction of a habitat.

In recognition of this fact, WIO presents the most complete and exquisite collection of hardscape materials, showcasing unique natural pieces crafted by nature from every corner of the globe.

Each of our hardscapes is meticulously handpicked from their places of origin, with collectors selecting only the finest textures, shapes, and colors that align with our stringent quality standards. This ensures an outstanding level of quality for our esteemed clients.

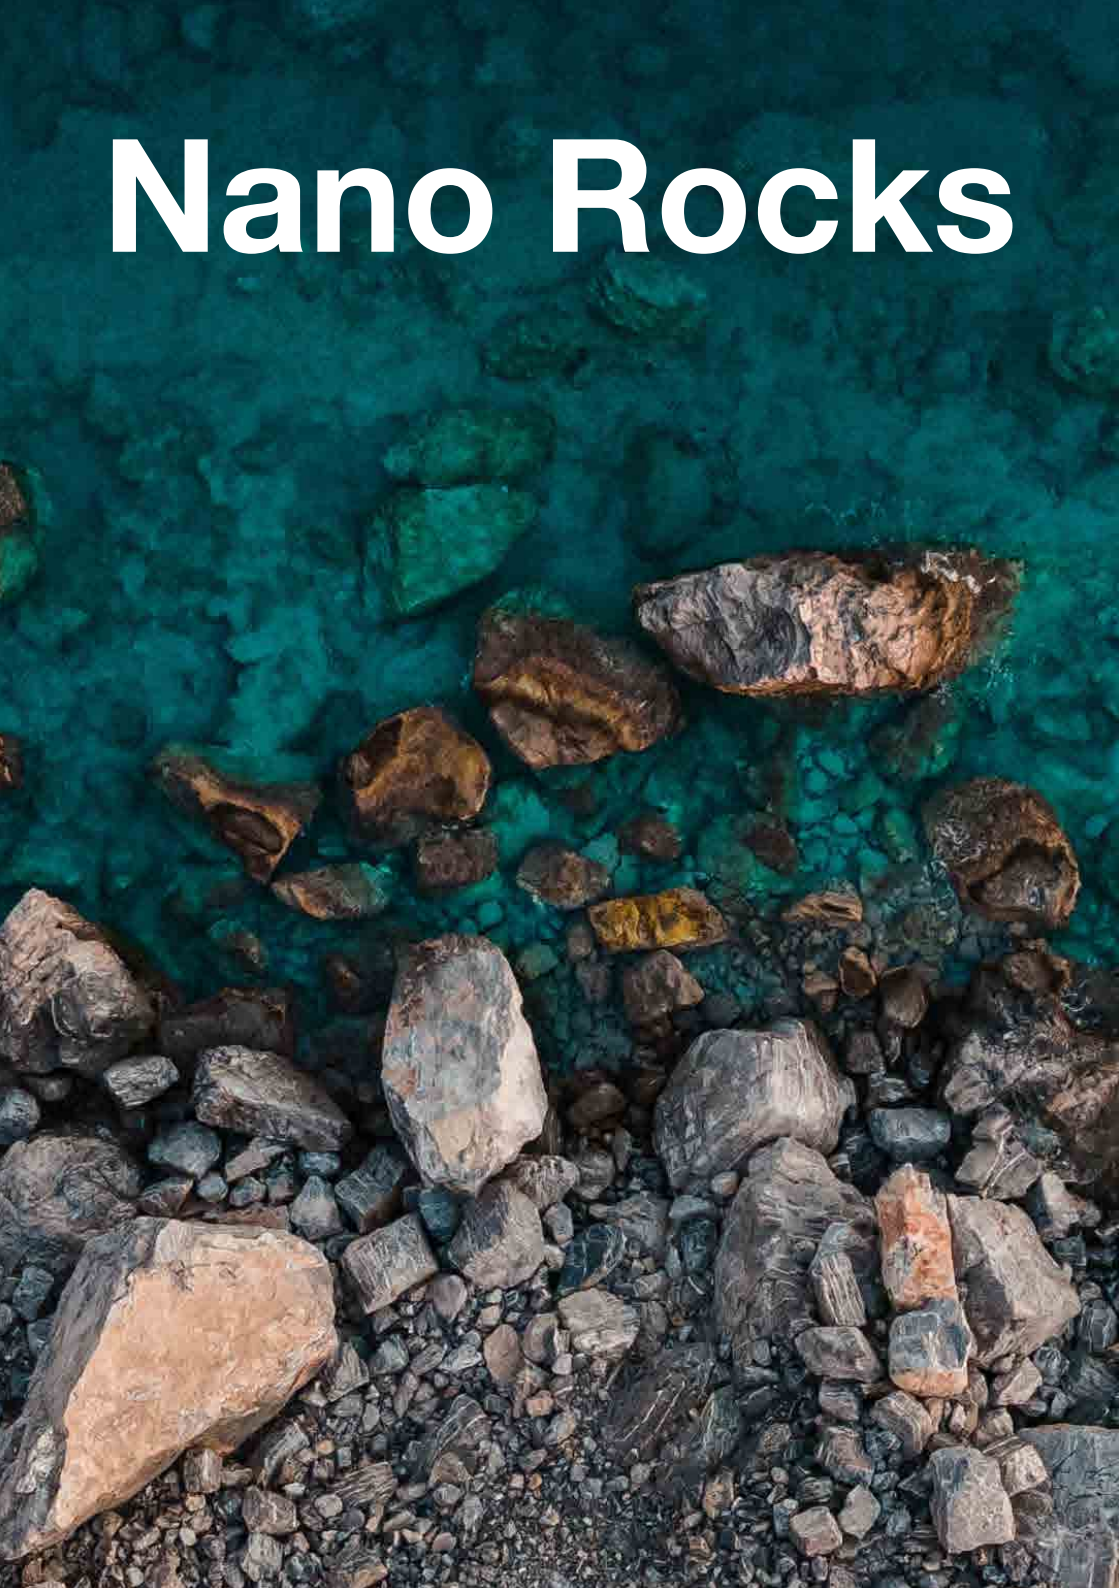

With WIOdecor, you will embark on an unprecedented journey of creating nature, where you can revel in the artistry like never before.

Nano Rocks

These exquisite miniature rocks serve as the perfect finishing touches, adding depth, texture, and character to your artistic vision.

These smaller rocks unlock endless design possibilities, allowing you to bring your creative ideas to life with precision and finesse. Nano rocks enhance the grandeur of larger stones with subtle accents, or it can create captivating focal points in nano setups.

Nano Rocks elevate the beauty of any scape to new heights.

ELDERLY

Well-known for its unique rugged texture and “cracking” pattern. The colour varies from brownish to grey.

52142 S - 2kg 1 - 10cm

BAM LAVA

Bam! This dark, highly textured rock was born in volcanic fires and has a correspondingly primordial feel to it!

52146 S - 2kg 1 - 10cm

HOLE

Our Hole Stone is now available in nano form! These engaging stones are riddled with fissures, crevices and holes.

52156 S - 2kg 1 - 10cm

INFERNO

New

Its rich, terracotta and reddish hues and rugged texture are ideal for those looking to create a striking.

52435 S - 2kg 1 - 10cm

LANDSCAPE

New

compact yet strikingly grey stone that complements most of the grayish aquascaping stones.

52433 S - 2kg 1 - 10cm

DARWIN BLACK LAVA

Coarse, volcanic rocks will bring texture and contrast to any display. With many fissures and pockmarks to provide interest.

52144 S - 1,5kg 1 - 10cm

WILD RED LAVA

Exhibits warm, red and ochre orange colours with highly textured surfaces providing ideal foothold for epiphytic plants.

52147 S - 1,5kg 1 - 10cm

GREY FOSSIL WOOD

Remarkable metallic grey colour tone with unique monolithic forms. An ideal stone to place standing up.

52149 S - 2kg 1 - 10cm

TITAN

miniature yet stunningly unique metamorphic stone. Its distinctive grey-bluish-green hues with white strata.

52344 S - 2kg 1 - 10cm

ETNA LAVA

Vivid rusty reds and burnt orange with dark, almost steel-blue highlights and heavily indented craggy and edges.

52145 S - 1,5kg 1 - 10cm

BUMBLEBEE

A stone with warm colours, pastel yellows, oranges and even hints of green and complex textures.

52148 S - 2kg 1 - 10cm

SILVER SHADOW

Mixed sized, flat stones can be used to create a shale effect in a biotope, or for detailing in an aquascape.

52151 S - 2kg 1 - 10cm

NEBULA

A stone with subtle textures and diverse colour shades, including hints of green, blue, ochre and flecks of white.

52152 S - 2kg 1 - 10cm

BLACK VENOM

A stone with rich and bold black colouration, combined with clean lines and textured surfaces.

52150 S - 2kg 1 - 10cm

DARKSCAPE

New

Enigmatic allure of Darkscape Nano Rock, a dense, deep-toned stone that beautifully complements darker aquascaping elements.

52434 S - 2kg 1 - 10cm

PALEOROCK

natural palette of brown, white, and reddish hues. Its lightweight and porous nature is enriched with a plethora of minerals.

52155 S - 1,5kg 1 - 10cm

WEB

porous surface makes it an ideal choice for those seeking a healthy and bioactive rock.

52157 S - 2kg 1 - 10cm

JADE

Richness of textures and green hues are maximized underwater. This stone can be easily sculpted.

52143 S - 2kg 1 - 10cm

Nano Boulders

Small in size, but mighty in impact, our Nano Boulders are the perfect companions for larger boulders, elevating your artistic vision to new levels of depth, texture, and character.

These exquisite miniature boulders unlock endless design possibilities, allowing you to bring your creative ideas to life with precision and finesse. Used as subtle accents to enhance the grandeur of larger boulders or as captivating focal points in nano setups.

Nano Boulders, the perfect companions that will help you achieve your desired aesthetic with precision and flair. Let these miniature marvels enhance the beauty of your scape, bringing your artistic vision to life.

DRUID

Dark, textured stones can be used to make an aquascape looked 'aged', especially when combined with plants such as Anubias.

52159 S - 2kg 1 - 10cm

WHITE ADDER

These pale-yellow to cream coloured stones are a great addition to the pallets of aquascapers and biotopers.

52160 S - 2kg 1 - 10cm

McDONALD LAKE

Outstanding colourful boulder which creates a unique riverbed impression. The boulders range in a wide colour palette.

52165 S - 2kg 1 - 10cm

BUMBLEBEE

Beautiful smooth textures with rich warm palette tones that bring a new impression to the aquascaping and biotope worlds.

52161 S - 2kg 1 - 10cm

BLACK VENOM

Stunning vibrant pitch-black colour boulders, this rock fascinates for its smooth, black-glazed surface and detailed textures.

52162 S - 2kg 1 - 10cm

INFERNO

Small boulders which display a rich pinkish red colouration and are detailed with many pale, dark and pink small flecks.

52163 S - 2kg 1 - 10cm

ELDERLY

Elderly boulders have rich textures, stripes and have a cold colour pallet that will make any scape stunningly attractive and natural.

52158 S - 2kg 1 - 10cm

MIST

New

The Mist Nano Boulder is perfect for creating a peaceful and authentic look in your aquarium or terrarium.

52436 S - 2kg 1 - 10cm

Stones

A comprehensive range of stones meticulously selected for their quality, size, color, and texture. Our collection of Stones is a testament to the power of nature's beauty, bringing authenticity and visual appeal to your habitat.

Our stones not only serve as stunning visual elements but also play a vital role in crafting a natural environment for your habitats. Each stone is carefully handpicked to ensure the highest quality standards are met. By understanding the science behind each type of rocks, such as igneous, sedimentary, and metamorphic, you can make informed choices to achieve high-end results. With our Stones, you can unleash your creativity and build stunning, natural scapes that provide a true sense of harmony and beauty for your aquatic or terrestrial companions.

Discover the limitless possibilities of our Stones range and build a habitat that celebrates the inherent splendor of nature.

NEBULA

New

Nebula stone is a unique slate stone with a variety of color shadows and a flat stratified texture.

52438	Box	Up to 60cm tank
52439	Mega Box	Over 60cm tank

Boulders

Boulders reflects the dynamic nature of the Earth's transformative forces. Like rolling stones, these magnificent creations have undergone a remarkable journey shaped by the gentle touch of natural processes.

Nature softens rocks into boulders through the power of erosion and weathering. Over time, wind, water, and other environmental factors gradually wear away the rough edges and refine the surfaces of these stones. The ceaseless flow of rivers, the crashing waves of the sea, and the caress of wind-blown sand all contribute to the sculpting process, gradually rounding and smoothing the once jagged rocks into boulders.

Each Boulder in our collection carries the unique markings and textures that tell the tale of its metamorphosis. From the gentle curves to the polished surfaces, these stones bear witness to the patient artistry of nature.

Our Boulders have been carefully selected for their exceptional quality, size, color, and texture. With their natural elegance and enduring strength, they serve as more than just decorative elements. They become the focal points, anchors, and havens within your habitat, providing both aesthetic appeal and functional value.

Each one represents a captivating testament to the transformative power of time, water, and wind—nature's gentle sculptors.

McDONALD LAKE BOULDER

Colourful boulders which create a unique riverbed impression.

52227	Box	Up to 60cm tank
52228	Mega Box	Over 60cm tank

WITHE ADDER BOULDER

slightly textured surfaces will reflect light and combine with plants to create a soft ambience.

52209	Box	Up to 60cm tank
52210	Mega Box	Over 60cm tank

Wood

Immerse your habitat in the power and beauty of wood. Beyond its aesthetic allure, wood serves a vital role in enhancing the well-being of your aquatic or terrestrial inhabitants. As an integral component of naturalistic environments, woods provide shelter, spawning sites, and feeding grounds for a diverse array of species, creating a harmonious and thriving ecosystem.

It's important to note that wood can influence water chemistry, with certain varieties releasing tannins that can tint the water and lower pH levels. However, our carefully curated selection includes woods with minimal impact on water chemistry, ensuring you can maintain a stable environment for your aquatic species.

Unlock the potential of your creativity by exploring our diverse collection of woods. From intricately textured branches to gnarled roots and driftwood, each piece offers a unique character and functionality for designing the perfect habitat for your plants and animals.

Embrace the mightiness of wood scapes, where beauty meets purpose, and watch as your habitat flourishes with the transformative power of nature.

STRIPED WOOD

Extremely rare wood with unique striped textures. It has a base root thicker area complemented with flowing branches.

52239	S	20 - 50cm

Arboretum

Introducing Arboretum, the exquisite collection of hand-crafted natural wood trees that elevate the elegance of your aquarium, terrarium, or home decor. Choose from four distinct shapes, each meticulously designed to embody the grace and charm of their respective tree forms. Whether you prefer the timeless beauty of bonsai, the rustic allure of bushes, the majestic appeal of trees, or the intricate depth of forest sceneries, Arboretum has the perfect addition for your nature creations.

Bonsai: The Bonsai line from Arboretum features hand-made trees that capture the serene elegance of traditional bonsai trees. Each piece is expertly crafted to mimic the shape and style of bonsai trees, creating a realistic and refined addition to any setting.

Tree: Arboretum's tree-shaped products are meticulously crafted to embody the essence and grace of actual trees. Their design accurately mimics the natural form and aesthetics of trees, ensuring that each product captures their majestic beauty.

Arbustus: The Arbustus collection features hand-crafted trees that imitate the appearance of bushes with remarkable precision. Each piece is made to embody the natural beauty and charm of bushes, providing a lifelike touch to any setting.

Forest Tree: The Forest Tree is the latest addition to the Arboretum collection, designed to create breathtaking forest sceneries by combining three or more individual trees on slate stone. The size, height, and thickness of the trees can be varied to create forests with great depth and complexity. The Forest Tree collection is rich in shapes and sizes, available in S, M, and L sizes for greater mixing options.

All Arboretum trees, including the Forest Tree, are hand-made in Barcelona by expert nature artisans using natural wood, ensuring that each piece is a unique and authentic addition to your space. The high-quality craftsmanship and attention to detail ensure that each tree is of the highest quality.

The Arboretum line of trees is more than just a decorative item for your aquarium or terrarium. With a little creativity, you can bring them to life by planting aquatic plants or mosses on their branches, giving them the appearance of a true living tree with leaves.

Roots are the essence of nature-inspired creations, imbuing aquariums, paludariums, and terrariums with texture, depth, and a captivating sense of natural beauty. Beyond their aesthetic appeal, roots offer a myriad of benefits for your aquatic organisms and plants, making them an essential ingredient in any nature-inspired setup.

We take pride in offering a wide range of root products designed to elevate your nature creation to new heights. Our Mini Roots, Twisted Roots, Ancient Roots, and Elder Roots provide versatile and authentic options to enhance the aesthetic and realism of your aquarium or terrarium.

From the intricate detail of Mini Roots to the mesmerizing twists of Twisted Roots, the flexibility of Ancient Roots and the versatility of Elder Roots, our line of root products offers a range of natural and authentic options. Enhance the realism and aesthetic of your aquarium or terrarium, and let the beauty of nature come to life in every detail.

Discover the transformative power of WIO's Roots and elevate your nature creation with the unmatched beauty and authenticity they bring.

52137 20kg 0,1 - 20cm

1 KIT FOR TANKS UP TO 60 CMS / 2 KITS FOR TANKS BETWEEN 75-90 CMS / 3 KITS FOR TANKS BETWEEN 90-120 CMS WEIGHT 16 - 20KG
 *PIECES, COLOURS, SIZES AND SHAPES OF STONES MAY VARY
 *PLANTS NOT INCLUDED

BECK

Inspired by black volcanic riverbeds around the world. This all-in-one kit creates an authentic dark natural

52132 20kg 0,1 - 20cm

Theming

Welcome to our Theming section, where we invite you to explore the captivating world of aquarium and terrarium theming. Here, you'll discover a range of innovative products designed to empower you in creating breathtaking scapes and providing the perfect environment for your aquatic and terrestrial inhabitants.

In this section, we showcase a selection of remarkable products that will enable you to unleash your creativity and design stunning scapes. Among them are AquaGrow InsulaPads, all-in-one versatile and flexible containers that offer the ideal substrate mix for healthy plant growth. These pads provide the freedom to place plants anywhere and effortlessly create sophisticated planted islands.

You'll also find LandForm, innovative pads composed of a breathable textile filled with porous, lightweight stones. With LandForm, you can effortlessly craft captivating scape shapes, from gentle slopes to towering peaks, while ensuring a thriving environment for your aquatic and terrestrial inhabitants.

To enhance your theming projects, we offer Sticky Soil, a revolutionary self-adhering black clay-like mud that solidifies after drying. This flexible substrate allows you to build retaining walls, create landscape profiles, and design impressive landscapes on any surface.

Additionally, we provide adhesives such as ScapeBond, an epoxy adhesive specially designed to bond hardscapes together securely and durably.

With these exceptional products, you have the freedom to express your imagination and transform your aquarium or terrarium into a work of art. Join us in this exciting journey of theming and unlock the boundless potential that awaits you.

Insula Pads

Immerse yourself in a world of limitless possibilities with our innovative Insula Pads. These all-in-one versatile and flexible containers revolutionize the way you create your scapes, cultivate, and showcase plants, offering the perfect substrate mix for their healthy growth.

With Insula Pads, you have the power to design captivating scapes, effortlessly bringing beauty and functionality to your aquatic or terrestrial setup. Immerse yourself in a world where creativity knows no bounds and let our Insula Pads be your gateway to crafting stunning and unique habitats that delight both you and your inhabitants.

LANDFORM SET

Sticky Soil

Sticky Soil, the innovative solution for creating unique and stunning landscapes and planted environments. This game-changing product is a self-adhering black clay-like mud that solidifies after drying, providing a solid base for plants, hardscapes, and more.

Sticky Soil's unique characteristics make it an incredibly versatile substrate for plant growth. It is permeable enough for water and roots to travel through, making it an ideal substrate for planting and supporting a wide variety of plant life. Its solidification properties make it sturdy enough to support plants, small hardscapes, and even bonsai on an otherwise unsupported base.

One of the most exciting features of Sticky Soil is its flexibility. It can be molded into any shape you want and applied to any surface, including stones, woods, glass, and more. With Sticky Soil, you can get creative and build landscapes and structures that were previously not possible. Its ability to stick to any surface allows you to create planted environments in places where it may have been difficult or impossible to do so before.

Sticky Soil is a ready-to-use product that is easy and fast to work with. Simply apply the mud to your desired surface and mold it into the shape you want. It retains its shape and holds a high amount of humidity, which is essential for plant growth. To preserve its moisture, it is recommended to wrap it in moss.

Whether you're an experienced terrarium, paludarium or plant enthusiast or just starting, Sticky Soil offers a new level of versatility and convenience that will take your planting projects to the next level. Try it out today and discover the possibilities!

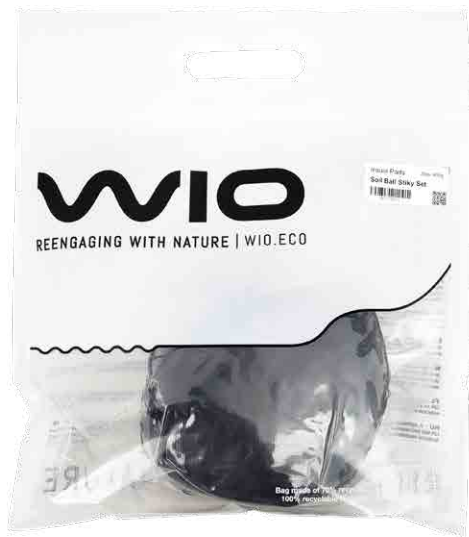

DRY / WET

STICKY

It is a flexible substrate permeable enough for water and roots, yet solid enough to support plants, hardscapes, and even bonsai trees.

At WIO, our ARIUM line transforms every aquarium, terrarium, paludarium, and glass bowl into a blank canvas, waiting to be adorned with the vibrant strokes of nature.

Our SPACE line was born from a singular vision - to craft unrivaled ARIUM canvases that inspire, enhance, and elevate your creative potential. With a meticulous eye for design and aesthetics, our tanks encapsulate simplicity and elegance with their pure lines, minimal transparent silicone cord, and the exclusive use of high transparency glass.

Made in Europe. Our WOODY and DOJO cabinet lines are designed to merge functionality with aesthetics, giving you the perfect platform to display your nature's masterpiece.

Arium

At WIO, we believe that every drop of water, every pebble, every leaf has a story to tell. This belief led to the creation of our ARIUM line - a curated collection of aquariums, terrariums, paludariums, and glass bowls.

ARIUM is more than a product line; it's a testament to our passion for encapsulating the serenity and beauty of nature in its purest form. It's a realm where the glass canvas meets the artist's vision, offering a window into the breathtaking diversity and tranquility of aquatic and terrestrial ecosystems.

Whether it's the rhythmic dance of fish in our aquariums, the serene slow-paced life in our terrariums, the dynamic interplay of aquatic and terrestrial life in our paludariums, or the simplicity of our glass bowls - each ARIUM piece is a celebration of nature's grandeur.

Crafted with precision and designed with love, every ARIUM piece is a portal that connects you to the calming rhythm and extraordinary beauty of nature. Welcome to ARIUM - your window to the world's most tranquil and inspiring vistas.

Aquariums

VISTAS line essence lies in its minimalism and purity, with a design philosophy that puts the emphasis on the content - the views of nature, recreated within a glass canvas.

VISTAS represents the visual deconstruction of the glass tank down to its simplest, purest form. We leverage pure lines, minimal transparent silicone cords, and make exclusive use of high transparency glass, chosen for its low iron content.

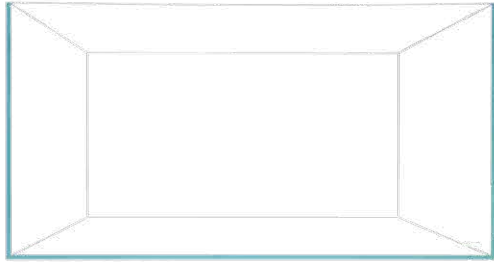

Our VISTAS line is designed to capture different aspects of nature's splendor:

VISTAS SF - SUPER SHALLOW: These ultra-panoramic tanks are designed with a focus on showcasing the emerged area, bringing out the beauty of plants like no other tank format. Specifically designed for side-top viewing, they provide a unique perspective on the world above the waterline.

VISTAS F - SHALLOW: These tanks offer the perfect balance between underwater and emerged views. They are designed to provide a panoramic underwater vista while maintaining an impressive showcase of the emerged line. Optimized for viewing from front to top, these tanks offer a dynamic perspective on aquatic environments.

VISTAS P - CLASSIC: These tanks are a nod to the classic and timeless design of aquariums, focused on providing the most striking vistas of the underwater world. They encapsulate the traditional essence of aquariums, offering a comprehensive view of the underwater spectacle.

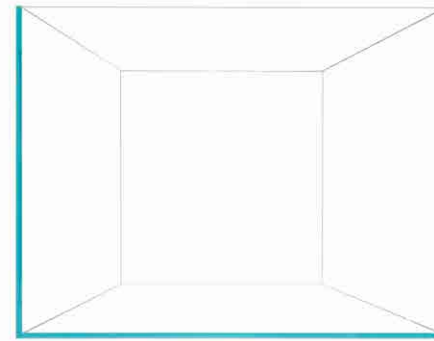

Every VISTAS tanks is proudly Made in Europe, reflecting our commitment to superior craftsmanship and quality. With VISTAS, you're not just acquiring an aquarium; you're bringing home a piece of nature's grandeur, beautifully framed for your everyday enjoyment.

VISTAS CLASSIC

This timeless tank format offers the most captivating vistas of nature beneath the waterline.

Mats

The VISTAS MAT is more than just an accessory—it's an essential layer of protection for your beloved tanks. Specifically designed for aquarium, paludarium and terrarium stands, this mat serves as a safeguard, absorbing the small impacts and vibrations that occur in daily life, ensuring the long-lasting durability of your tank.

This safety pad provides a secure base for your displays, offering optimal protection against stress cracks in the glass and accidental displacement. Its thickness is meticulously tailored to match the weight of your tank, providing reliable support and peace of mind. With the VISTAS MAT, you can confidently enjoy your nature creations without worrying about potential damage.

Not only does the VISTAS MAT protect your tank physically, but it also provides thermal insulation on the base, shielding your environment from temperature fluctuations. This insulation helps maintain a stable and comfortable habitat for your aquatic inhabitants, promoting their overall well-being.

Versatility is key, and the VISTAS MAT is available for all our tank ranges, making it a seamless addition to any WIO setup. Crafted with meticulous attention to detail in Europe, this mat ensures the safety and stability.

VISTAS MAT

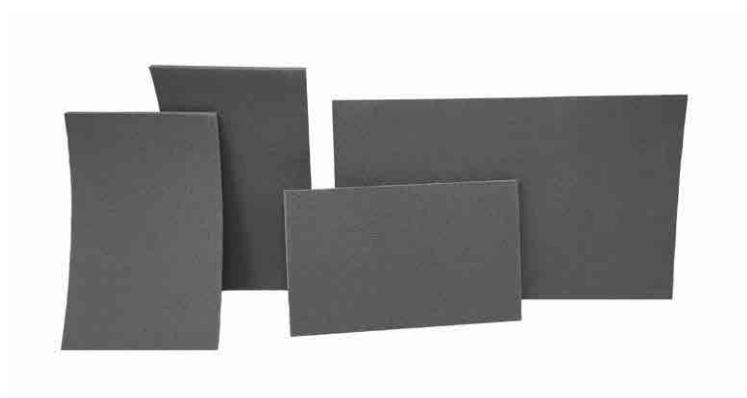

A protective mat designed to safeguard your aquarium, absorbing daily impacts and vibrations, and providing thermal insulation.

52311	CUSTOM	10cm2 - 8mm

Furniture

A person is shown from the side, working on a wooden piece of furniture in a workshop. The person is wearing a dark long-sleeved shirt and a watch. The background is dark and filled with various tools and materials, suggesting a professional woodshop environment. The lighting is focused on the person's hands and the workpiece.

We understand that scaping nature is more than a hobby; it's an art form. It's a practice that brings you closer to nature while allowing you to express your creativity and individuality. And like every artist, a scaper also needs a space that inspires them, a space that supports their vision, a space that is as much a part of the art as the art itself.

That's why we created the Furniture line, a collection of finely crafted furniture dedicated to the art of scaping. This line includes our WOODY range and the DOJO series. Designed to enhance your creativity and concentration, these pieces are much more than simple furniture. They are partners in your journey of scaping, offering functionality, style, and a touch of nature in their design.

Our WOODY range is made from eco-friendly solid pine wood, meticulously crafted by wood artisans in Barcelona to provide a stunning display for your VISTAS aquariums. Each piece is not only a stand for your tank but also a storage solution for your equipment, with a design that respects and complements the beauty of your aquascapes.

Then we have our DOJO line, inspired by the traditional Japanese "place of the Way". Handcrafted from sustainable pine wood, DOJO is more than a piece of furniture. It's a tool for concentration, creativity, and transformation, enabling you to dive deeper into the art of scaping.

At WIO, we're dedicated to providing you with the tools you need to create your underwater masterpieces. The Furniture Line is just another step in that direction, offering you furniture that's designed for scaping nature, because we know that when it comes to creating beautiful things, every detail matters.

Cabinets

Experience the art of scaping nature like never before with WIO's Cabinet Series, including our WOODY and DOJO lines. Every piece in this collection is more than just furniture; it's a partner in your creative journey.

Our WOODY range, hand crafted in Barcelona by expert wood artisans from eco-friendly solid pine wood, provides a stunning display for your VISTAS aquariums and doubles as a storage solution for your equipment. The DOJO line, handcrafted and inspired by traditional Japanese aesthetics, enhances your concentration and creativity, offering an immersive scaping experience.

Dive into the world of scaping with WIO's Cabinet Series. Crafted with care, designed with purpose, and ready to inspire.

WOODY V.2

Our innovative furniture line crafted from environmentally-friendly solid pine wood, designed to beautifully display your VISTAS aquarium while providing ample storage and functionality.

52312	W36	36x30x80cm	25mm
52313	W45	45x30x80cm	25mm
52314	W60	60x35x80cm	25mm
